Our Proven 4-Step Proof-of-Concept Process

01 NEEDS ANALYSIS

We interview key technical and executive stakeholders to develop a complete understanding of your current BizTalk environment. We then work with your subject matter experts to define goals and identify the riskiest and most complex applications to upgrade.

02 DESIGN

We collaborate with your team to choose applications from those identified to be part of your BizTalk Server 2013 upgrade POC solution.

03 DEVELOPMENT

Using proven agile methodology, we upgrade your chosen applications to BizTalk Server 2013, employing comprehensive testing procedures throughout the process to ensure each applications works properly.

04 DOCUMENTATION

Your engagement isn't complete until we provide you with:

- Vision, scope and requirements documents
- Requisite system design specifications
- A POC showcasing the migrated applications
- An outline of engagement specifics and recommendations
