

# The Remote Workforce Suite Accelerator

Elevate remote team efficiency and collaboration with a secure, one-stop solution in the Azure cloud

Our accelerated 4-week engagement provides remote workers with access to key applications, tools to enable calls, chats, meetings, and collaboration, and a secure, cross-device experience to maximize productivity.

Microsoft

Available

With Intune, Windows Virtual Desktop, and Microsoft Teams, we can quickly assess, roadmap, configure, and deploy a full solution to help your employees work remotely without feeling remote.

**At the end of the 4-week engagement, outcomes for your organization include:**

## Access For Remote Teams

- A scalable Virtual Desktop Environment in your Azure subscription
- Remote worker access to key cloud and on-prem apps
- The ability to deploy and manage virtual desktops and easily assign users

## A Connected, Collaborative Workforce

- A configured O365 environment evaluation and roll-out plan
- A deployed and configured MS Teams tenant
- A next-steps roadmap to maximize employee collaboration

## Easy, Secure App and Device Management

- A security posture and score determination, leveraging security center
- Secure logins, app connections, and endpoints using Intune and the Azure environment
- The ability to review and audit remote workforce access to base MSFT cloud apps and data

\*Four week timeframe assumes an existing Azure subscription. Inquire for full details.
