

PACE Senior Care Administration Solution

Ensure consistent care of PACE participants.
Build strong relationships with providers.
Work at scale.

Not all *PACE Administration solutions are built the same. Neudesic's design is a sleek, modern, mobile-ready PACE Administration application built on the tested, reliable Microsoft Dynamics 365 Platform to manage participant care and provider payments accurately and efficiently. Our out-of-the-box solution is designed to better facilitate administration and easily track participant care while providing a full 360-degree view of participants and providers. Enable your organization to work at scale, while meeting government compliance and reporting requirements.

What's in it for you?

- ✓ Ensure a 360 degree view of every participant receiving all the care and services covered by Medicare and Medicaid
- ✓ Meet compliance and regulatory requirements easily and efficiently
- ✓ Scale smoothly and quickly
- ✓ Gain powerful insights
- ✓ Deploy to the cloud without additional infrastructure
- ✓ Launch an accelerated packaged solution
- ✓ Work securely and efficiently
- ✓ Manage PACE marketing requirements per CMS guidelines

Prepare for breakthrough business performance.

How does it work?

This easy-to-use digital solution integrates with your EHR and other systems to track participant demographics and care across all provider types. You can calculate provider fees more precisely based on level of care, payment rules, standard Medicaid rates, custom contracted rates, bed hold fees, pendant and other add-on fees.

Some of the many features of our PACE solution include benefits across the provider and participant spectrum.

For Participant Management

- PACE Enrollment History
- Medicare/Medicaid Eligibility
- Continuity of Care
- Up-to-date Demographics and Care Status
- Easy access on any device

For Provider Management

- Push communications
- Management of state and federal compliance
- Accurate administrative reporting
- Advanced payment management
- Security and Confidentiality

Superior Technology

- One click deployment and simple setup
- Packaged solution
- Secure deployment
- Responsive design
- Simple administration
- Easily scalable
