

# THE FIRM DIRECTORY

NEUDESIC

## Find experts. Share knowledge.

Expertise location for  
law firms and corporate  
legal departments.

expertise location | secure social collaboration | alumni & matters directories

## Can your firm's directory do this?

### Locate Expertise Quickly

Find experts with a  
couple clicks.

Find everyone in your firm whose experience meets specific criteria. Search by role, location, hourly rate, language, bar admission, and control which filters are available to specific people.

### Reduce Email Overload

Enable self-service access to all the skills and expertise of everyone in your firm.

Create extranets with clients or outside counsel to source key expertise and knowledge faster, while cutting inter-team emails by up to 30%. Then collaborate securely with experts on matters or projects.

### Flexible, Secure, Customizable

Surface information captured in internal systems and eliminate inputting data manually.

Customize profiles by adding fields that fit the needs of your firm. And keep everything private with built-in security settings.

# Key Features of The Firm Directory:

## Expertise Finder

Use customizable fields to search every profile in your firm to find people with the right expertise for each opportunity.

## Secure Social Collaboration

Add on-premise social capabilities to The Firm Directory, and confidentiality share knowledge and information around sensitive clients, practices or matters quickly and easily while maintaining complete confidentiality.

## Mobile App

Access firm knowledge and search profiles from anywhere. The Firm Directory's mobile web application gives you access to Expertise Finder and click-to-call.

## Firm-Specific Directories

Choose the area of knowledge and experience you want to unlock with custom directories that highlight: clients, key deals, practices, offices, or opposing counsel.

## Matter Information System

Enrich knowledge around matters with attributes like industry, matter type, or opposing counsel, then enable matter-specific collaboration, with robust search and pivoting.

## Profile Approval Workflow

The Firm Directory's moderation engine allows you to monitor and approve employment history, key clients, skills or any other profile content prior to publication.

## Alumni Directory

Boost referrals and revenue with a useful database of former partners and attorneys including contact information, work history, and data from your HR system, and combine it with key clients, matters and legal skills.

## Role-Based Search

Control which filters are available to specific people or groups to limit access to certain information.

## Handshake Software Integration

Combine The Firm Directory's expertise location and social capabilities into Handshake search and portals to find expertise and collaborate in a secure, ethically-walled environment.

## SharePoint

Out-of-the-box integration and SharePoint Web Part give you access to all features of The Firm Directory through your intranet and extranet, without the need for connectors.

## People Pivot

Build a list of people with shared education, bar admissions and industry experience, and then navigate quickly through their profiles.
